Mind the Gap Productions

We're making a **TV program** that looks at what it's like to be unemployed. We will have four TDs across the country live the lives of their constituents for a week, to show the reality of how families are affected by Dail.

One of the four constituencies we're focusing on is **Donegal South West**. I am looking for families who would be interested in **showing a local TD** what life is really like for them. Throughout the series we're looking for **families that are in receipt of social welfare payments or, because they were self-employed, are having difficulty accessing state support.**

The series aims to have real people engage on a personal level with their political representative and start a conversation that could lead to change. The program will be shot in the next month and will air in early 2015. There is a fee for the household featured in the series. If you have any questions or would like more information please give me a call on 01 6624742.
