### World Refugee Day 20th June

World Refugee Day 20 June celebrates the strength and courage of the more than 100 million people globally who have been forced to flee from their homes. Most of these remain in their other parts of their home country but about a quarter leave to find safety in other countries. Escaping war and conflict is the commonest reason for people to flee their home but they may also be at risk of persecution simply because of who they are, due to their gender, religion, ethnicity, political opinions or sexual identity. The theme for this year's World Refugee Day is *Hope away from Home* and focuses on the power of inclusion as the most effective way to support people in restarting their lives. We remember today the many people who have come to our shores who have been forced to flee from their own country and many others who are still in refugee camps around the world.
